

WISDOM IT SERVICES CLIENT CASE STUDY: **Migration hiring for a large BFSI Client**

Client Profile:

A large BFSI client with pan-India operations and a leader in investment and wealth management services.

The Project: a large migration

The client needed a recruitment partner to manage a large migration project as they moved several core functions from Gurgaon to Bangalore. Following the original project, Wisdom IT Services continues to act as a long-term recruitment partner, recruiting for several hundred positions across many sectors including secretarial & support services, financial services, contract and permanent project management, and accounting.

Managing the hiring process

Along with meeting several candidates and supervising the initial interview processes, Wisdom IT Services manages all pre-employment screening for the client's candidates, including credit and reference checks.

The Results

Wisdom IT Services has recruited over 500 junior and senior management professionals for the client along with providing pre-employment support. We were able to provide the right calibre of candidates for all levels of their recruitment.
